Revision: 08/01/2025

1. Product Overview

- Earloop High Barrier face mask for oral exams of high-risk patients and other dental and medical procedures involving high levels of spray, splatter.
- Fluid resistant @ 120 mmHg equivalent to arterial blood pressure, Earloop masks meet the most demanding conditions faced by clinicians.
- BFE and PFE filtration efficiency > 98% @ 0.1micron assures a high level of protection against potential sources of infection.
- ASTM Level 2 Earloop Face Mask
- Shingle pleat design (will not lint, tear or shred), prevents the pooling of fluids and cross contamination.
- Dye free non-woven inner layer provides additional protection.
- Especially useful for laser procedures that generate harmful airborne particles.
- Soft and strong, ample-length Earloops so there is less pulling, and adjustable nosepiece for comfortable fit.
- Latex-Free
- Available Color: Blue
- Single-use only

2. Specifications
